CONDITIONS OF SALE

The sale is held by a licensed and bonded auctioneer according to the laws of the City of New York. The terms of sale are strictly cash; title does not pass on any lot until payment has been made in full. The highest bidder shall be the buyer; the decision of the auctioneer will be final in all instances.

Persons unknown to the auctioneer are requested to make themselves known before the sale and must furnish satisfactory credit references seven days prior to the sale or remit a 25% deposit on the amount of bids submitted. Deposits not used will be immediately refunded. Every bidder is personally liable for all purchases; bidders cannot claim to act for a third party.

No unlimited bids will be accepted, but lots will be purchased for customers unable to attend the sale and for mail bidders at the lowest possible price without charge or commission. The floor bidding will start at about 5% above the second highest mail bid and will proceed at about a 5% increase above the previous bids until the lot is sold. Lots will be sent by registered mail within five days after the sale, postage to be paid by the buyer. Lots delivered in New York State are subject to the appropriate sales tax. Mail bids must be in the hands of the auctioneer by November 15th.

The authenticity of every item is unconditionally guaranteed. Any lot not as described or represented must be returned within three days of receipt.

Bids in writing or bids at the sale are taken to imply the acceptance of the above conditions of sale. The auctioneer cannot be responsible for bidder's errors.

Every coin lot will be shown on a color slide when it is put up for bidding. The auction room will remain well lighted for the convenience of the auctioneer and bidders and without impairing the quality of the projection. No coins will be available at the sale. Books will be on view.

There are no coins of Trajan known for this Nome.

Though it is generally assumed that the coinage for the Nomes was struck at Alexandria, several coins here (notably number 428) are of a fabric and style quite unlike the Alexandrian series. The denominations are not known, and seem to vary from Nome to Nome. The Nome coinage is all rather scarce and no cabinet, public or private, contains enough coins to make a complete study of this fascinating coinage possible. The coins are inscribed on the reverse with the name of the Nome and with the date.
